PROJECTS

- **Blog App with CRUD Operations and Authentication** (GitHub Link)
  This project is a full-stack web application built with React.js for the frontend, Node.js for the backend, and MySQL for the database, focusing on CRUD (Create, Read, Update, Delete) operations for blog posts with user authentication.

- **To Do List** (Live Demo) (GitHub Link)
  Created a to-do list application using JavaScript, HTML, CSS. Features task addition, editing and deleting with a clean, user-friendly interface and real-time updates.

- **Memory Card Game** (Live Demo) (GitHub Link)
  Developed a memory card game using Html, Css, and JavaScript. The game features a responsive design, intuitive user interface and smooth animations for an engaging user experience.

- **Weather App** (Live Demo) (GitHub Link)
  Created with HTML, CSS, and JavaScript. Features real-time weather updates and a responsive design for a seamless user experience.

- **Law Intern** (Figma Design)
  Designed a user-friendly website named "Law Intern" using Figma. This platform assists law students and recent graduates in finding job and internship opportunities with ease. The project showcases my skills in web design and user experience.
